INDEX TO VOLUME 12 OF THE POLICY STUDIES JOURNAL

The following indexes of authors and subjects cover the four quarterly issues of the twelfth volume of the Policy Studies Journal. The four issues are numbered from page 1 through 798. The four issues cover a variety of topics by way of the symposia, the non-symposium articles, and the literature reviews. The symposia especially dealt with distributional impacts of public policies, policy evaluation for local government, land policy, and presidential policy-making.

The Index of Authors covers authors of articles, authors of books reviewed, and reviewers of books, but not names referred to in the articles. The Index of Subjects mainly covers the basic concepts included in the titles and subtitles of the symposium articles and the non-symposium articles plus the titles of books reviewed. The bodies of the articles and the book reviews were also consulted to clarify the concepts derived from the titles. Future annual indexes will appear in the first issue of each volume to cover all issues in the previous volume.
